REMARKS/ARGUMENTS

The indication of allowable subject matter in the last Official Action is appreciated. Claims 5 and 7 through 18 have been amended to overcome the various indefinite rejections.

Claim 5 has been amended to refer to "said keyed surfaces" previously defined in claim 3.

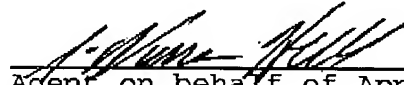

The preamble of dependent claims 7 through 18 have been amended to read "An adjustable in height armrest". This amendment is believed to overcome the objection with respect to the preamble of the claims.

With respect to claim 15, the claim now refers to "said spring biased lock release member" and thus proper antecedent basis is provided as this component is defined in claim 1.

Claim 16 has also been amended to refer to the ports of said armrest carrier introduced in dependent claim 14. These ports are provided in the armrest carrier and serve to locate the locking members.

In view of the amendments to the claims, it is believed the application is now in condition for allowance.

Respectfully submitted,
